SUMMARY

Full Stack Software Engineer with expertise in building end-to-end solutions across web and mobile platforms using Node.js (NestJS), Next.js/React, React Native, and C# (.NET Core). Experienced in designing scalable systems with Clean Architecture, DDD, microservices, and event-driven patterns. Proficient in both frontend (React, Next.js, TypeScript) and backend (NestJS, .NET, RESTful APIs) development, with strong DevOps skills in Docker, Kubernetes, and CI/CD. Passionate about delivering high-quality, maintainable code and leveraging modern technologies including AI/prompt engineering to accelerate development.

SKILLS

React, Next.js, React Native (Expo), TypeScript, JavaScript, Angular, Node.js (NestJS), C# (.NET Core, ASP.NET), Python (FastAPI, Flask), RESTful APIs, Microservices, PostgreSQL, MySQL, MongoDB, Redis, SQL Server, Oracle, Clean Architecture, DDD, SOLID, Design Patterns, CQRS, Event-driven Architecture, Docker, Kubernetes (GKE), CI/CD, Git, Cloud deployments, Kafka, RabbitMQ, Keycloak, Firebase, Agile, Scrum, AI & Prompt Engineering, Nx Monorepo

EXPERIENCE

Software Engineer

Oct 2025 — Present

Spesia

- Building full-stack features for an AI-driven oncology platform using NestJS (backend) and Next.js (frontend) with microservices architecture and Nx monorepo
- Implementing event-driven workflows with Kafka and Redis, applying Clean Architecture, CQRS, and design patterns across the stack
- Developing scalable UI components and RESTful APIs for treatment and prescription management
- Managing cloud-native deployments with Docker, Kubernetes (GKE), and CI/CD pipelines

Full Stack Developer

Sep 2022 — Oct 2025

Penseapp

- Developed end-to-end solutions for multiple products: web applications (React, Next.js), mobile apps (React Native/Expo), and backend APIs (.NET, ASP.NET, NestJS)
- Built complete features for food card platforms, gift card sales, toll tag systems, and travel booking solutions (bus/airline tickets, hotels)
- Integrated payment gateways, external APIs, and third-party services in a cloud-based environment
- Contributed to an AI-powered language learning platform: implemented full-stack features with OpenAI integration, speech recognition, user personalization, and performance analytics

Full Stack Developer

Jun 2022 — Sep 2022

Altatech

- Refactored VPS cloud and storage platform architecture, improving performance across frontend and backend
- Built sales portals, admin dashboards, and VM management systems using Python (FastAPI/Flask), NestJS, Next.js, and Angular
- Developed RESTful microservices and connected them to SQL Server databases in an Agile environment

Backend Developer

Nov 2021 — Jun 2022

Atos Capital

- Developed payment system integrations, NFC-e issuance features, and ERP (SAP) connectors using .NET Core
- Built and maintained RESTful APIs, ensuring high availability and SLA compliance
- Worked with SQL Server and Oracle databases for transaction processing and reporting

Backend Developer

May 2021 — Oct 2021

Avonale WorkPlace

- Developed vehicle financing system features using C# .NET (ASP.NET MVC) and SQL Server
- Built RESTful APIs and contributed to frontend development with HTML, CSS, and JavaScript
- Collaborated in an Agile (Scrum) team delivering incremental features

Backend Developer

Dec 2019 — Mar 2020

Implanti Soluções

- Developed and maintained PHP applications for electronic invoicing (NF-e)
- Provided technical support and basic IT infrastructure assistance

EDUCATION

Postgraduate Degree in Software Engineering and Systems Architecture

Completed — 2025

UNINASSAU

Associate Degree in Systems Analysis and Development

Completed — 2019

UNINASSAU

LANGUAGES

Portuguese — Native

Native speaker

English — Professional

Technical reading and professional communication
